

## 30 Minute Monogram Stripe Pillow

This pillow is so easy that it doesn't really require a pattern, just a few measurements to keep the scale right. This pillow finishes at 18" and I use a 20" pillow form to keep it nice and overstuffed.

For piece A, trim your monogrammed panel to 7.5" wide and 18.5" tall  
For piece B, cut two pieces of coordinating fabric 6" wide and 18.5" tall

Sew each of your B pieces on each side of the A center piece and press. Fuse your finished pillow front to fusible fleece and quilt as desired. Finish your pillow with your preferred pillow back method. For this pillow I used the Lia Griffith Easy Zippered Pillow Tutorial – it is on Pinterest and works like a dream.
